

QUALITRAIN TEAM PROFILE

Name **Howard Davall**

PROFILE

Howard has worked with Qualitrain since 2008 and provides further depth in the company's extensive expertise in the polymer industry. A qualified assessor for NVQ in Business Improvement Techniques, his experience covers the requirements of very different industrial scenarios and he is very familiar with the needs of modern, Blue Chip manufacturing companies.

Outside work, Howard's keenest pursuits are cycling, angling and reading.

INDUSTRY BACKGROUND

Howard's career began with several years of self-employment as a Plumbing and Heating Engineer, a period which he feels taught him a great deal about handling pressure! His career in industry began 15 years ago in food manufacture, and from this beginning he swiftly progressed to join Windmill Extrusions in the demanding role of Cell Co-ordinator. He has worked within the polymer industry ever since and has a thorough knowledge of tooling and manufacturing techniques.

Before becoming an Associate Assessor with Qualitrain, Howard had risen to the position of Team Leader, developing a reputation for setting exacting quality standards. This role has provided Howard with a thorough grounding in the requirements of compliance with ISO 9001 standards.

During the last 2 years, Howard has extended his managerial and business development experience in a complex and demanding role within the Caterpillar sites at Stafford and Shrewsbury, where he co-ordinates and assesses the delivery of Business Improvement Techniques programmes.
