Can not see the course you are looking? We may even be able to help with that too!

For more information, details on prices or available training dates please contact us to discuss further.

*Novice Operator: A person with little or no experience of driving a fork lift truck.

*Experienced Operator: A person who uses the fork lift regularly but has never undertaken a formal course and test.

Conversion: A person who is certificated on one category of truck but needs to drive a different category. (An operator cannot convert from a pedestrian operated truck to a rider-operated truck)

Refresher re-test: A person who holds a certificate to operate the truck but needs their skills updating in accordance with HSE guidelines
